

# Council Calls Meeting On Sydney Cove

3.3.64  
More than 100 Sydney businessmen will be invited to a conference proposed by the City Council to discuss a plan for the development of Sydney Cove.

The council's city planning and improvements committee yesterday recommended the conference.

The plan was drawn up by the Professor of Town and Country Planning at Sydney University, Profes-

sor D. Winston, and the council's principal planning officer, Mr D. McLachlan.

It envisages the development of the area bounded by Bridge, George and Phillip Streets and the Cahill Expressway.

## Third Plan Considered

It is the third plan to be considered by the council.

It was prepared after the council decided a new scheme should be drawn up to embody the "more desirable features" of two previous plans.

Alderman L. E. McDermott (Civic Reform) said the conference should discuss the possibility of elevated footways above street level for pedestrians.

Mr McLachlan said pedestrians were reluctant to use these footways.
