

# THE WORK OF URBAN SYSTEMS CORPORATION Proprietary Limited

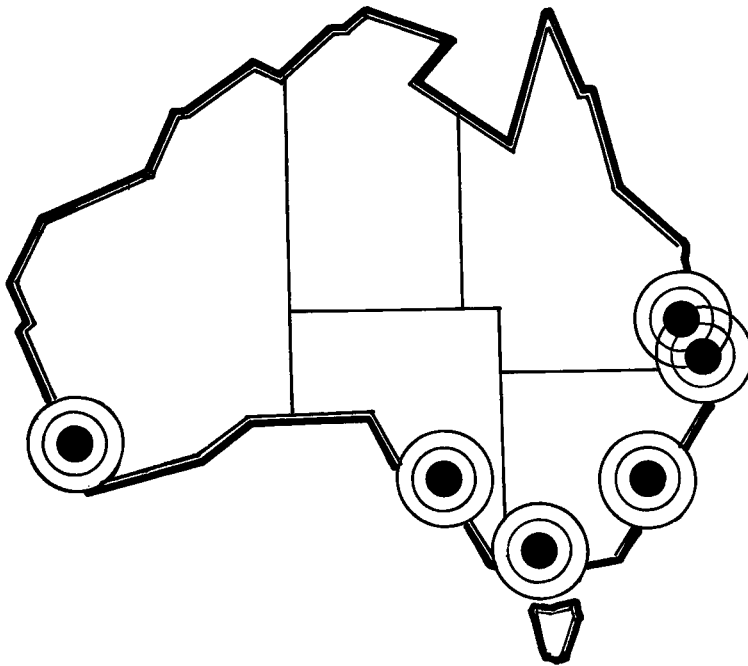

## URBAN SYSTEMS CORPORATION

Australia

USC has grown over fifteen years from Clarke, Gazzard and Partners, Australia's pioneer innovators in urban and regional research, planning and design. It continues to provide, both nationally and internationally, urban and regional research, planning, design and architectural services. This Australian firm has now grown to a multi-disciplinary organisation with a skilled and experienced staff of more than 70 professionals.

The wide range and scale of projects undertaken for government, institutional and private sector clients is such that USC is the most experienced independent consulting group in Australia devoted to these multi-disciplinary skills. USC has teams of consultants in offices in Adelaide, Brisbane, Gold Coast, Melbourne, Perth and Sydney. It has a proven record of successful project completion for national, state, local government and private clients in every Australian State and Territory.

Urban Systems Corporation personnel have carried out considerable work outside Australia, in New Guinea, Fiji, Mauritius, Iran, Ghana and the Philippines. It is registered with the United Nations Development Programme and the Asian Development Bank. USC has many affiliations with other Australian and overseas experts and associations.
