This dates the start of construction of the last of the 5 stages of Martin Place as a pedestrian plaza

TENDERS

THE COUNCIL OF THE CITY OF SYDNEY

MARTIN PLACE

PHILLIP STREET TO MACQUARIE STREET STAGE V

It is Council's intention to create a pedestrian precinct in the above section of Martin Place. The block will be split into two sections. The upper section at the Macquarie Street level will be joined to the lower section by a curved flight of steps.

In the centre of the upper section there will be a circular fountain 18 metres in diameter.

The areas will be paved with a pink granite to match the completed sections of Martin Place, and radiating lines in a contrasting colour will focus on the fountain. Trees, seats and flower pots will enliven the scene. The total area involved is approximately 2400 square metres.

It is anticipated that the cost of the work will be in the order of \$500,000 and it is proposed that the construction work will commence early in 1977 and will be completed within 6 months.

Applications are invited from persons who would be interested in tendering for the above work. Written applications should be addressed to the Town Clerk and should arrive before October 14, 1976.

It is anticipated that tenders will be invited on November 1, 1976.

L. P. CARTER,
Town Clerk.
