Dear Mr. Clarke:

I find it extremely hard to reply to the questions raised in your letter of 4th August, 1959.

I can only express my personal opinion on the prospects of large scale urban redevelopment in Australia and that is that I feel these prospects will become realistic within the next two/three years.

As to the role that you may be able to play in this development with some reasonable assurance of continuity, this will always depend on the person involved and not knowing you, I would be unable to make a judgment in your particular case.

Yours sincerely,
